The

A BAO Lor,-That nobody may be lempted to waste sympathy upon either of the rival Governors of Arkansas, it only needs to state the chief facts of the long contest that has been going on be tween them. The election for Governor was held about two years ago. Brooks just closing. All are cordially invited, got the most votes, and should have been declared elected. But Brooks was an ex-rebel, and Baxter, representing the regular Republicans and the ne grees, was upheid by the administration. He appealed to the legislature and that being composed of carnet-bag gers and negroes, sustained him. Brooks appealed to the courts, and the courts held the matter in consideration for a year and a half. Meanwhile, how ever, sides changed. Baxter became conservative. He snubbed and disappointed some of his strongest Radical supporters, and they, in revenge, went over to the Brooks party, and eventually Brooks became the administration candidate. This change made the courts ome to a decision the media of the ease laid been unable to bring them to. They decided that Brooks was the lawfully elected Governor, as indeed he was. Whereupon Brooks, supported by the men who didn't vote for him, took sedden military and unwarrantable possession of the State house, and proclaimed himself Governor, white Baxter, gathering together Brooks' old adhereuts, prepared to oust him, Thus began the war, for a while so threaten-

ing, but now likely to dissipate in tempost of ungry words. - latter news is more serious; w have bloodshed to report. One hundred and fifty of Brooks's men, colored, but sucd. A note was sites entropy at \$65,50, (par \$50.) drifted by the current, reached the in number, fled up the bank, Into the Agricultural Rall, continued throughout the woods. The casualties amounted to week, closing on Saturday evening. The at two killed and several wounded on the business was large after the first night, and Baxter side—all whites. Of the Brooks a high degree of appreciation of the magnifimen two were wounded, one mortally -

DISEASES OF THE BLOOD.

excrete from the system the noxious elements, it is not of practical importance that I should describe each. For instance, medical authors describe about fifty varieties of skin thecase, Annexation" to the city of Baltimore has been defeated, the people of the belt proposed to be annexed voting against it by 1,130 to 675 for it.

Annexation to the city of Baltimore form of skin disease, so you know how best to cure it. Then again I might go on and describe various kinds of serufulous sores, fever sores, white awelling, changing thinds, and there of varying appearance glands, and there of varying appearance. sweirings, Affections of the Skin d Bouce, and Cheers of the Liver, !

DUR DORMANT EMERGIES.

Aidneys and Lungs.

Our bornmant exergies.

Our bornmant exergies.

Our bodies are not as vigorous nor our minds as clear as they might be. This remark is true of at least two thirds of civilized society, and of these translities of a character likely to shorten the lives of the sufferess. This is a incluncibly exhibit and furnishes abundant food for reflection. Can the cvil be mitigated? It can, Lack of vinitity is the primary cause of most of the physical and mental suffering to which we are subjected, and therefore a vitalizing medicinal agent is the remedy required. Is there such a medicine? There is, Hosteter's Sommeh Bitters will rosse and energize the initial and body when the life power of the system lain a comparatively dormant state. The languid, fields, deside, desponding invalid is not aware of the latent energy that underlies his debility. He thinks there is no element of vigor left in his frame, when he fact is that his physical capabilities are merely asleep and only require waking up. Let him stimulate and tone his animal machinery and enodw it with new motive power, through the agency of this uncomparable invigorant, and he will soon feel like a new man, or rather like very hard. A dentist in Richmond, Va., now gives one to every patient who has nooth pulled.

—Hon. James R. Doollitle, once so prominent in national politics, has necepted the Presidency of the Chicago University, at a salary of \$5,000 a year.

—With some people creamiton is only a question of time. If it don't come in this world it is sure to do so in the next.

—A bill thus passed both houses of the Legislature making the adulteration of milk an offense, punishable by a fine or imprisonment or both.

—Those who have plenty of money are bothered without it.

—A fashion critic says the new bonness.

NEWSPAPERARCHIVE®

THE FARMER. DRILLING VS. BROADCASTING.

The following is taken from the report of the Department of Agriculture to: April and May, 1874; The use of the drill for winter-wheat has become so prevalent that many incollegent people think the practice of sowing broadcast by hand has become gare obsolete. It is by no means the case. Information acquired through our correspondence shows that of the

come winter-wheat area, 52 per cent. only is put in with the drill.

"Does drilling tend to precent winters being of wheat?" Repeated testimony green shable manure if you can avoid he will be been reveived from Well rotted manure or compest, ushes, manded nearly universal acquiescence, applications, Hill culture is the most con-Occasionally the negative has been assumed by writers for agricultural papers, In reviewing the deliberate uttermers be talsed. Deep plowing is a rescential of our own correspondents, testimony of full success, and subsolling, where it has so accumulated as to settle the can be practiced, is very useful. To question beyond a preadventure. Optis-keep the ground loose and open, and ons are found to differ relative to the free from weeds, is another necessity to be amount of b nefit derived from drilling, make a paying crop. Do not allow the in different softs and seasons, but the earth to become crusted over, and begeneral fact of advantage is afterned forc the vines appear above the ground by nearly 33. The amount of advantage, is estimated variously from 10 to 100 per cent.

Calculated with reference to the quantity grown in each county, the average of all these estimates of increase is 10 per cent., which is equivalent to the total quantity of seed used.

In the principal wheat-growing county the surface of all these principal wheat-growing county the serious are six incless bath. Plant as

a great protection against winter-frosts, and saves one-fifth of the seed." In Steuben and Wayne the crop is 50 per cent. Letter than that broadcasted in Livingston and Ontario 10 per cent.

'A better growth in the fall" is respected from Monroo, "In fourteen place. But after underdrining it with years' trial drilling proved a benefit in every year but one," says our Wyons, revery year but one," says our Wyons, and desirable farm. Thave increased the contact of the c counties, and from many which have twenty bushels of inferior, to eighty solutions of the majority bushels of good, sound corn. Before the Nagara, a county which sometimes to the first the data the drains the could, with careful probability of probability of the data. in Niagara, a county which sometimes. I laid the drains I could, with careful produces a nullion bushels, think drift, culture, produce from five to ten bush-"ner prevents winter-killing, though els of meetier wheat; but after the file same prominent farmers do not admit drain was laid, I have had no trouble in Testimony is in the same direction of superior wheat,

ry New Jersey, with the gole exception

or the return from Monmouth. In Corlogion an exception is naturally claims to know, says in the Obio Firm-crough made relative to marshy land, er, that a bandful of salt rubbed on council made relative to marshy land, er, that a handful of sail rubbed on where winter-wheat could searned he the back of a horse directly over the spected to survive the effects of sub-bidneys is a simple but sure remark pareging and integing. Of county re-for colic. "Rab briskly and until the 1 sts from Pennsylvania, only three salt decolves, and longer, if necessary, c my positively the winter-protection and it is the wind colic and the dilling, Lehigh, Clinton, and Union. Morse does not get over it in fifteen to L. Sign it is said that wheat was or twenty minutes, then I say I know o worse killed where it was dellied. It wollding about it; for thirty live years dermed an madecised question in I have never known it to fail. I first Bucks, Chester and Westmorland, learned h from a bounster in Hillings, 1). Bing ia Washington "prevents win- and have seen it bried in numerous 1). Jung in Washington prevents who cases,"

1) injuries to such an extent that cases,"

1) riters of fields drilled last fall for The Michigan Fermior says, "William recting this question produced fair Smith, of Detroit, Michigan, cased and cops, while portions broadcasted failed full a pig. a cross of the Essex and

trong, while portions around not a many ten a port is cross of the trong and strong "A larger straw, better Suffolk, which at seven months and bury and larger yield," are results of three weeks gave a dressed weight of colling in Lirectic. It is acknowly 400 pounds. This is the largest weight outling in Linzenie. It is also seek on pointers.

Out if in Delaware that it saves seek we have ever known resoure farmers still doubt the economic portion to ago, " ad the broadcast sowing was frozen out, " Me that drilled had deeper root and did much better." Our Wyoming cortan acre of data d-wheat."
